***Allowable Subject Matter***

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: the instant application is deemed to be a nonobvious improvement over the inventions of Yagi et al. (U.S.P. 6,036,084) and JP 10-217,425. The improvement comprises mounting tin-zinc solder with a mask and squeegee where moisture in a surrounding atmosphere is maintained at a value equal to or less than a predetermined value. The invention of Watanabe et al. (U.S.P. 5,778,638, noted in the Information Disclosure Statement of 4 March 2004) is also noted by the examiner. While Watanabe et al. teach the minimization or control of moisture for a stored solder material, Watanabe et al. do not teach the control of moisture during printing. The invention of Watanabe et al. regards storage conditions for solder and is not an obvious improvement to solder printing means or methods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin L McHenry whose telephone number is (571) 272-1181. The examiner can normally be reached on M-F.
